# CONFERENCE

## **BILETA 2023**

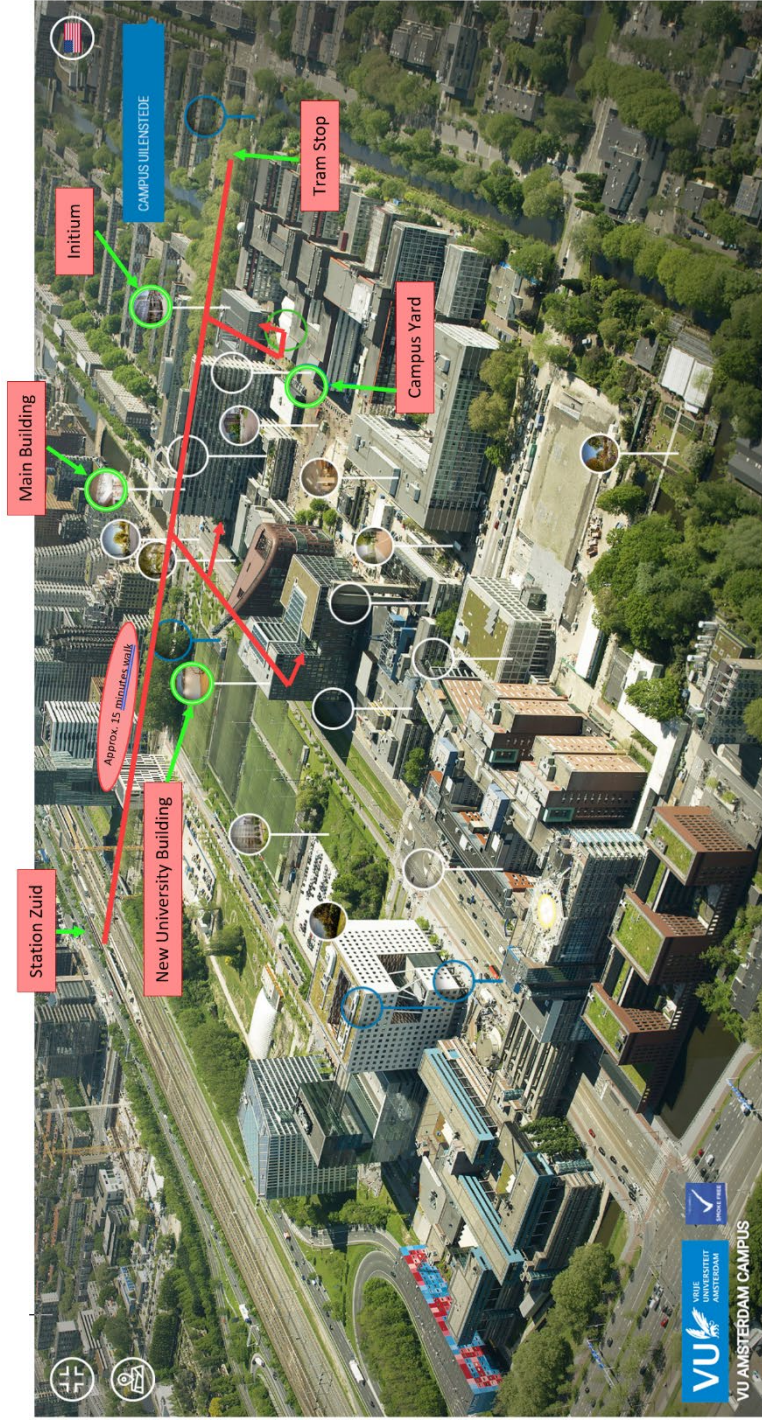

### **Cyberlaw:**

### **Finally getting its Act(s) together?**

ALTI, the Amsterdam Law & Technology Institute of the Vrije Universiteit, is thrilled to be hosting the BILETA conference once again after 21 years. This year's conference theme is inspired by the plethora of legislation related to technology that has been introduced in recent years. From the DMA and DSA to the Data (Governance) Act and AI Act, as well as the newly introduced Code on Electronic Communications, the field has seen an overwhelming number of regulations and directives. Keeping track of these developments and understanding their interconnections can be a daunting task, but we aim to provide valuable insights and help attendees navigate this complex landscape. With almost 100 presentations on our interesting program, we hope that everyone will not only benefit from the conference but above all enjoy it.

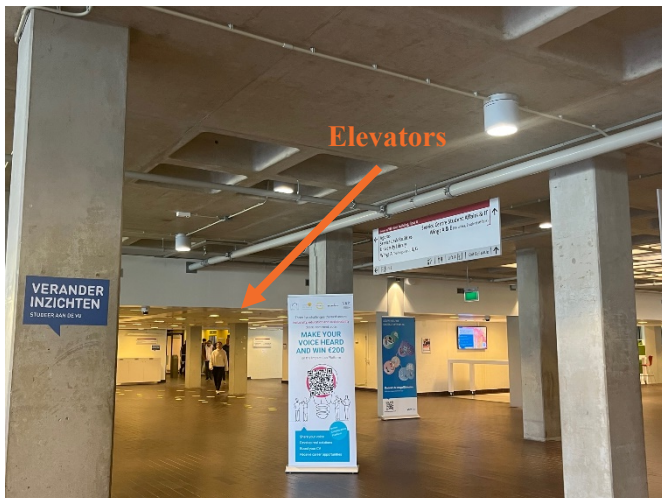

Arno R. Lodder, chair BILETA 2023

# Main Building

## Main Entrance (coming from Station Zuid)

Once you enter, turn left towards the elevators.

The board tells you which elevator to take to get to a specific floor. The floor number is part of the room number and always comes after the initials HG.

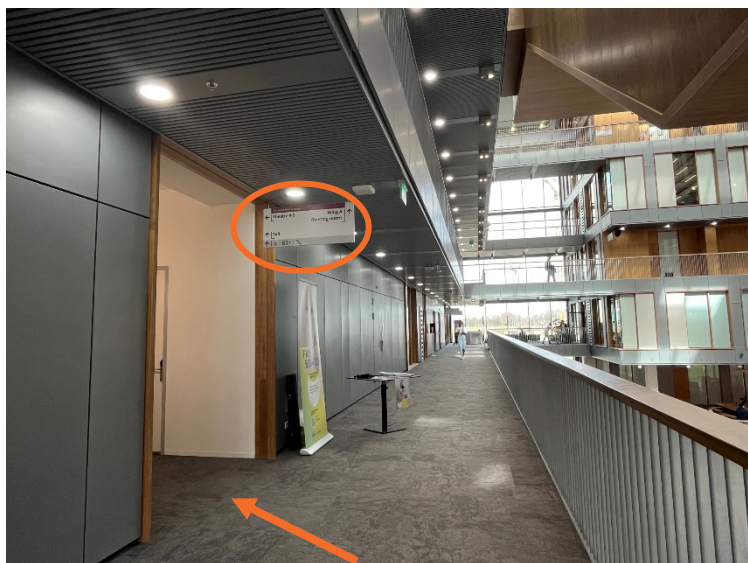

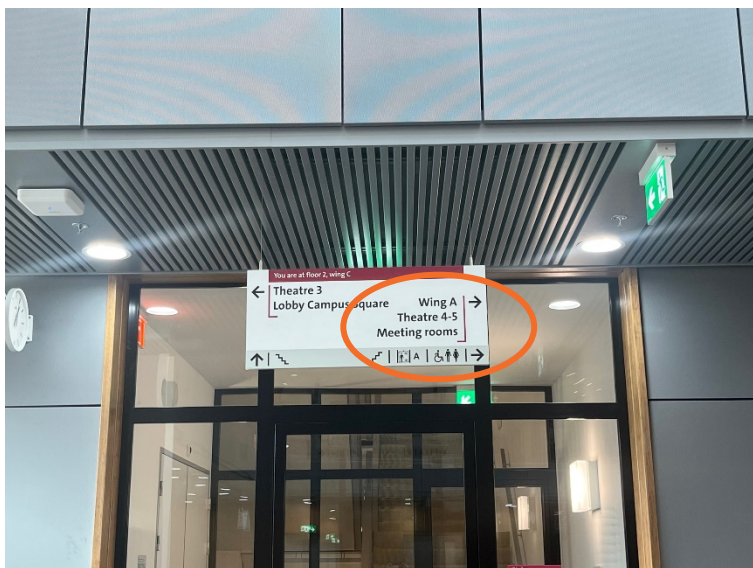

Entrance from Campus Yard

# New University Building

## Main Entrance

Entrance from Campus Yard

Initium

Main Entrance from Campus Yard

## Entrance from Tram Stop/Street

Walk through the under path and then turn to the left to get to the main entrance.
